

Leo Smith

Email: leo.smith@hotmail.fr

Website: p4p1.github.io

My Skills:

Programming languages:

C, Java, Bash, Python, Javascript, ARM Assembly, Arduino C++

Markup languages:

HTML, CSS

Languages:

Fluent French, Fluent English

Misc:

Electronics, Basic Low Level Computer Security, Basic Web Computer Security, Linux Administration

My Work Experience:

Pharmaceutical stock clerck — 2013 (one week): Cachan, Ile de France

Stored medicine on a daily basis. Also helped printing and storing medicinal order for customers and gave direction to customers inside of the store.

Banking stock clerk — 2017 (one month): Gobelins, Paris Ile de France

Stored all the archives of the bank to help the employees to find checks and banking folders.

Programming Assistance — 2017 (one week): UpWork

Had to write a function, without any external library, in C that retrieves the source code from any WebSite. I sharpened my TCP/IP and socket programming Skills.

Script improvement — 2017 (three months): UpWork

Improved an existing python script that executes modules in a special environnement.

My Education:

Lycee Guste Eiffel, Cachan — Finished: Baccalaureate.

Basic computer science, studied basic micro controllers and electric components. Basic networking, C++, HTML, CSS, Javascript programming.

Epitech, Paris — current: Software architect and Computer networking and security, MBA Buisness and managment.

Learning computer and software architecture in procedural and object oriented programming. Average networking and computer security. Advanced networking, C, C++, Basic Linux Administration.
